MERINO WOOL

HISTORY

Calcetines Mingo is a family business founded in 1914 in the town of Pradoluengo in Burgos, a town with a long textile tradition, where 25% of Spanish socks are produced.

Today, the fourth generation of the Mingo family has increased production to **2M pairs of socks per year**, manufacturing high quality products with a balance between tradition and the avant-garde.

COMMITTED TO SUSTAINABLE DEVELOPMENT

As a result of our commitment to quality and sustainability, we have been accredited, since 2003, according to the UNE EN ISO 9001 and 14001 standards.

Our quality plans (PCAL) cover everything from the control of the reception of raw materials, production and final control before dispatch, but our commitment goes beyond that. From local employment in the rural environment, to the use of recycled material or low carbon footprint, so we use renewable energy through solar panels.

Every effort is little to leave a better planet for future generations.

TRADITION AND VANGUARD

With the passing of time, we have renewed our machinery to adapt to new production systems, and in our R&D department we work tirelessly to offer technologically advanced products with the user's comfort in mind.
